

4<sup>th</sup> March 2020

### **Buderim Statement on COVID-19**

Buderim Group has so far seen no reduction in demand and minimal disruption to business operations due to the COVID-19 outbreak. In addition we are also working closely with our supply chain partners to ensure a continuous supply of our products to our customers.

We and our partners will continue to closely monitor our position and update stakeholders of any important developments.

Since the outbreak of COVID-19, as a matter of priority, we have been working closely with employees to ensure that we have implemented World Health Organisation recommendations ( <https://www.who.int/health-topics/coronavirus> ) and a number of company-wide policies to manage an evolving situation.

A handwritten signature in black ink, appearing to read "Andrew Bond".

Andrew Bond  
Chief Executive Officer
